

FRIENDS OF THE BINNS ORGAN at Nottingham's Albert Hall

The Binns Organ was a gift to the citizens of Nottingham by Sir Jessie Boot over 100 years ago and it was his wish that the organ should be known as the City Organ.

The **Binns Organ Trust** relies heavily on ticket sales and the generosity of individual donors to meet the costs of maintaining this wonderful instrument and delivering a world class organ recital series

You are invited to become a **Friend of the Binns Organ** to help ensure that the instrument be be enjoyed by the citizens of Nottingham for many years to come.
